## **Bullying or Harassment Reporting Form**

This report must be completed to file a complaint relating to an incident of alleged bullying or harassment as defined in LCSB Policy 5.33 and Section 1006.147, Florida Statutes and turned in to the school or worksite designated location. If you fear a student is in IMMEDIATE danger, please contact the student's school or law enforcement immediately!

**Bullying** – including cyberbullying is defined as willfully and repeatedly exercising power or control over another by systematically and chronically inflicting physical hurt or psychological distress on one or more student or school employees.

Harassment – for purposes of this policy, includes but is not limited to, any threatening, insulting, or dehumanizing gesture, use of data or computer software, or written, verbal, or physical conduct directed against a student or school employee that 1) places a student or school employee in reasonable fear of harm to his/her person or damage to his/her property; 2) has the effect of substantially interfering with a student's educational performance, opportunities, or benefits; or 3) has the effect of substantially disrupting the orderly operation of a school.

The following factors will determine if bullying or harassment for students and employees falls within the scope of the Lake County School District:

- A. During any education program or activity conducted by the District; or
- B During any school-related or school-sponsored program or activity or on a District school bus or at a District school bus stop; or
- C. Through the use of data or computer software that is accessed through a computer, computer system, or computer network of the district within the scope of the school district, meaning regardless of ownership, any computer, computer system, or computer network that is physically located on school property or at a school-related or school-sponsored program or activity; or
- D. Through the use of data or computer software that is accessed at a non-school-related location, activity, function, or program or through the use of technology or an electronic device that is not owned, leased, or used by the District or school, if the bullying substantially interferes with or limits the victim's ability to participate in or benefit from the services, activities, or opportunities offered by the District or school or substantially disrupts the education process or orderly operation of a school. This paragraph does not require a school to staff or monitor any non-school-related activity, function, or program.
